

Dear Colleague

DERMOSCOPY: NEXT STEPS

**NEXT STEPS DERMOSCOPY:
Suitable for Primary and Secondary Care Clinicians**

Venue: Apex City Quay Hotel, 1 West Victoria Dock Road, Dundee DD1 3JP
Date: Friday, 1 February 2019
Time: 08:45-16:10

This course is intended to help further dermoscopy skills for those who have already had a basic introduction to dermoscopy.

It should act as a refresher for those who have been on previous courses, and allow a gentle introduction to the next level of dermoscopy to assist clinicians to improve their practical skills.

It is built on proven methods of teaching, which have proved extremely popular and successful. It is designed to be interactive, with a strong emphasis on case discussion and peer/peer learning and the workshops will give the opportunity for interaction with patients.

The course material will cover the scope of dermoscopy, a review of terminology, diagnosis of melanocytic and non-melanocytic lesions, use of algorithms and specific anatomical sites.

As places for the course are limited, a prompt response will be necessary to secure your place. Should you require any further details, please do not hesitate to contact me.

Yours sincerely

Professor Colin Fleming
Consultant Dermatologist
